

COBRA® NG POLYMER

25 mm female part, black standard clips

Art.no.: FN25WF-MM

The COBRA® NG QUICK RELEASE is a safety buckle equipped with an innovative Triple Lock System. It is manufactured from high-strength polymer in an injection molding process. Its special design makes it extremely robust and resilient.

For opening the triple lock mechanism: 1. Squeeze clips 2. press the buckle together and 3. lift it upwards.

This version of a female COBRA® NG is intended for 45 mm webbing width. This part is non-adjustable, the webbing needs to be sewn in.

Features:

- Male and female part of the COBRA® NG interlock positively. This makes the locking mechanism non-load bearing and extra strong.
- A release under tension is impossible.
- The special lock makes the two parts effortlessly snap into place.
- Locking is confirmed by a distinct “clicking” sound.
- All sizes and variants of the COBRA® NG are compatible.

use cases:

equipment, Fashion, tactical
